## BELMONT LIGHT'S DIRECT DEBIT BILLING PROGRAM

The Belmont Light is pleased to offer Direct Payment to our customers! We can help you simplify your monthly bill paying when you sign up for our Direct Debit Billing Program. You can save time and postage by having your electric bill paid directly by your bank. All customers are eligible to participate.

## IT'S RELIABLE

Direct Payment uses the same network as Direct Deposit. With more than half of all Social Security benefits paid this way, you are assured that the system is safe and reliable. Your rights with Direct Payment are protected by state and federal regulations. And remember, you may cancel your Direct Payment Authorization at any time in writing to Belmont Light.

## HERE'S HOW THE DIRECT DEBIT BILLING PROGRAM WORKS:

With Direct Payment, your bank account is charged directly for your bill. Belmont Light will send your bill to you at least 10 days before the charge goes through, so you'll have time to

question or stop the charge. When your bill arrives, simply note the date and amount to be deducted (located above left of your name and address on the bill) in your checkbook.

## IT'S CONVENIENT

Complete the form in this brochure, write "VOID" across a check for the account you wish to use and return both to:
