# *Introducing Online Payments Through SmartHub*

**As of September 9th,** Belmont Light has switched its online payment vendor from InvoiceCloud to SmartHub. You will now able to explore, manage, and make payments to your accounts all in one streamlined, easy-to-use portal.

**InvoiceCloud will be discontinued** as a method to make payments to your Belmont Light electric and Town DPW water accounts after September 8th.

## Benefits of this switch in online payment systems

- **Pay Now - A simple process lets you pay your bill without creating an account**
- **Automatic Payments - Set up recurring payments with bank account or credit card**
- **Scheduled Payments - Set up a one-time future payments**
- **Stored Payment Information - Save your banking and credit card information**
- **Real-time Account Updates - Faster display of your payments on SmartHub**
- **Mobile Payments Through the SmartHub App -  Available on Android and iPhone**
- **Online Bank Interchange - Paying through your bank as a faster ACH transaction instead of a physical check**

*Additional enhancements and features to come*

## *After logging in to SmartHub, you will have multiple ways to make a payment:*
**1.  Click "Pay Now" at the top of the page.**

**2.  Click "Make Payment" in Account Overview section.**

**3.  Click the "Billing & Payments" tab at the top of the page   ...**

**and make a one-time payment.**

**4.  Click the Auto Pay Program**

**...    set up automatic payments**
